PERSONAL SUMMARY

As a Master of Animal Science graduate from Gadjah Mada University with a final grade/GPA of 3.78, I have explored various aspects of the livestock industry, both ruminant and poultry, during my studies. I have in-depth knowledge of livestock management, animal health, reproduction, animal feed, and other technical aspects required to manage livestock businesses efficiently and sustainably. With the practical and theoretical experience I have gained, I am ready to face the challenges in the livestock industry and contribute positively to the development of the livestock sector in Indonesia.
