

CURRICULUM VITAE

SUMMARY OF EXPERIENCE

- Graduated from Mechatronic Engineering Education at Yogyakarta State University with GPA 3.63.
- Has good skills in programming, such as C, Python, arduino programming and problem solving.
- Familiar with MySQL, Oracle DB, Git, and general technological competencies.
- Can adapt quickly to learn new technologies, program, environments, and have optimal physical

PERSONAL INFORMATION

Name : Betty Indrawati

Gender : Female

Nationality : Indonesia

Birth date : April 22th 1999

KEY RELEVANT EXPERIENCE

Junior NET Developer at PT Ikonsultan Inovatama (2022-Present)

- Work with team in developing Finance eForm.
- Has experience in software development, such as building web applications, using .net web API for backend applications
- Create technical documentation for reference and reporting
- Testing and deploying programs and systems

Learning Designer at PT Arkademi Daya Indonesia (January-April 2022)

- Develop course design (learning course curriculum and module).
- Identify learning objective and needs.
- Interacting with Subject Matter Experts on topic and subject of the course regarding learner's need.
- Identify market trends (supply and demand side), and competitor analysis.
- Design course module components suitable for online learning, including assessment and infographics.
- Creating supporting materials that include multimedia in various formats (e.g., audio, video, screencasts, gamification, etc.).

Research Assistant at Department of Electrical Engineering Education, Yogyakarta State University (September – November 2021)

- Title "Development of Learning Model with Mobile Learning Method for Vocational Schools"

Subject Teachers of Programmable Logic Controller (PLC) at SMK Negeri 2 Sragen (July – September 2020)

- Teaches PLC class XII TITL 1, 2, and 3
- Create a ladder diagram program and apply it to the PLC CP1E in the PLC project for teachers of the TITL Department at SMK N 2 Sragen

Research and Development Division at PT. Putra Multi Cipta Teknikindo (August – September 2019)

- Responsible for making electronic circuits, assembling, testing, and quality control of electric batik stoves and electric canting
- Conduct research on electric batik stoves for product improvement and development

ACADEMIC HISTORY

- Bachelor of Education, Mechatronics Engineering, Yogyakarta State (2021)

SKILL

- Computer and Technology : Programming (Arduino, C, Python), Microsoft Office, Augmented Reality, CAD, Arduino, PLC
- Language: Indonesian, English

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

- UNY Technology Engineering Student Activity Units Robotics Team (2017-2018)
- Member of the Public Relations Division at 8th Sragen University Expo 2019
- Liaison Officer at Pekan Ilmiah Mahasiswa Nasional (PIMNAS 31)

PUBLICATION AND PROJECTS

- Mobile Augmented Reality Application for Component Identification-Journal of Physics: Conference Series · December 03rd 2021
- Development of Augmented Reality-Assisted Mobile Learning in 3D building Competency Mathematics Subjects (September-October 2021)
- Development of Augmented Reality Assisted Mobile Learning Development on Distribution Stations for Flexible Manufacturing Systems Course (February-August 2021)

AWARD

- 3rd place in National Mathematics Microteaching Competition 2021 · October 2021
