085892087574 | ikhsanmaarif09@gmail.com | www.linkedin.com/in/nur-ikhsan-ma-arif-797340243 Pabuaran, Kec. Cibinong, Kab. Bogor

A Fresh Graduate in Aquaculture from Universitas Tidar with a strong understanding of Quality Assurance (QA) and Quality Control (QC), supported by an academic background in microbiology, aquaculture biotechnology, and fishery product processing. Experienced in attending training programs related to quality management, laboratory testing, and food safety, and skilled in applying HACCP, GMP, and ISO 9001 principles in the context of the food and fisheries industry. Proficient in microbiological techniques for microorganism identification and analysis, water quality testing, contamination testing, as well as evaluating the physical, chemical, and biological parameters of products. Competent in documenting test results, analyzing laboratory data, preparing QA/QC reports, and implementing Standard Operating Procedures (SOPs). Hands-on experience with microbiology laboratory equipment, bacterial culture techniques, antibacterial activity testing, and molecular analysis using PCR. Skilled in using Microsoft Office Suite (Word, Excel, PowerPoint) for report preparation, data processing, and professional presentation of test results. Open to contributing to companies in the food, aquaculture, biotechnology, and testing laboratory sectors as part of a QA/QC team committed to product quality and safety.

Education Level

S1 Aquaculture, Universitas Tidar IPK : 3.63	August 2021 – February 2025
MIPA, SMAN 1 Citeureup Nilai Akhir : 87.1	July 2018 – July 2021

Work Experience

FisTx Indonesia Yogyakarta <i>Research and Development staff Internship</i> - Conduct literature studies on fish, shrimp, or other aquatic organism farming techniques. - Collect data from ponds or aquaculture farms, including water quality (pH, temperature, dissolved oxygen), fish growth, and feed conversion rates. - Assist in feed trials, maintenance methods, or new technology implementation. - Support experiments on feed efficiency improvement, disease control, or aquaculture system enhancement.	March 2025 – April 2025
Grabag Fish Seed Magelang <i>Hatchery fish staff internship</i> - Manage a comprehensive broodstock rearing programme, including health monitoring, high quality feeding arrangements, and maintenance of environmental conditions that support productivity.. - Conduct regular sanitation and hygiene management of the hatchery area to prevent contamination, minimise disease risks, and create conditions that support hatchery sustainability.	March 2024 - April 2024
Aquaculture Business Service Center Karawang <i>Laboratory staff internship</i> - Perform detection and identification of viral diseases in fish using PCR (Polymerase Chain Reaction) molecular techniques for accurate diagnosis and early treatment. - Manage and maintain laboratory equipment and implement fish vaccination programmes to improve the immune system of farmed fish. - Perform quantitative analysis of bacterial populations using the Total Plate Count (TPC) method and identify bacterial characteristics in the culture pond environment.	January 2024 - February 2024
CV Mina Pabilon Temanggung <i>Research internship staff</i>	September 2023 - November 2023

- Live Feed Management: Prepare and maintain high-quality natural feed sources for koi fish sustainably.
- Hybridization Program: Support aquaculture technicians in selecting superior broodstock and monitoring environmental conditions during koi hybridization processes.
- Pond Preparation: Participate in pond structure optimization, application of supporting materials, and environmental factor control.

Ciganjur fish seed, center for fish production, inspection and certification

August 2023 – September 2023

Jakarta

Hatchery fish staff internship

- Water Quality Monitoring: Conduct comprehensive measurement and evaluation of physical, chemical, and biological water parameters to ensure optimal conditions for aquatic organisms.
- Feed Development: Develop and optimize giant gourami feed composition based on nutritional requirements at each growth stage to improve growth efficiency and survival rates.
- Pond Management: Implement pond preparation and maintenance procedures including drying, repair, liming, fertilization, and aeration system installation to create optimal cultivation environments.

Yogyakarta Aquaculture technology development center -

January 2023 – February 2023

Yogyakarta

Shrimp farm intern technician

- Water Quality Analysis: Conduct comprehensive measurements of physical, chemical, and biological water parameters to optimize environmental conditions in fish farming systems.
- Shrimp Feed Formulation: Develop balanced shrimp feed compositions with essential nutrients according to growth stages to improve survival rates and growth performance.
- Probiotic Biotechnology: Apply biotechnology in probiotic production through isolation, cultivation, and formulation of beneficial microorganisms to enhance shrimp immunity and digestive efficiency.

Organizational Experience

Voluntary corps of Indonesian Red Cross Society

December 2021 - February 2025

Division staff of Education and training

- Conducting interactive training and learning sessions on first aid, focusing on practical skills and preparedness for emergency situations.
- Actively contributing to the implementation of various community service activities that create a positive impact and address community needs with tangible solutions.
- Taking part in several work programs, collaborating enthusiastically to achieve planned objectives with dedication and teamwork.

Students Association of Aquaculture

February 2023 – February 2024

Head division of Strategic Study and Advocation

- Actively participating in in-depth studies on strategic issues in the fisheries sector to identify key challenges and promising opportunities.
- Supporting the organization of seminars focused on strategic planning and community empowerment programs related to aquaculture, aimed at enhancing awareness and active community participation.

Academic Activities and Publication

- | | |
|---|------------------------------------|
| • Practicum Assitant of Basic Chemistry | August 2022 – December 2022 |
| • Practicum Assistant of Planktonology | January 2023 – May 2023 |
| • Practicum Assistant of Basic Cultivation of fish | August 2023 – December 2023 |
| • Practicum Assistanf of Basic Microbiology Aquaculture | August 2023 – December 2023 |
| • Practicum Assistant of Parasite and Fish disease | January 2024 – May 2024 |
| • Practium Assistant of Basic Microbiology Aquaculture | August 2023 – December 2024 |
| • Practium Assistant of Food Microbiology | August 2024 – December 2024 |
| • Teknik Kultur Fitoplankton Chlorella vulgaris Sebagai Pakan Alami Ikan Kerapu Cantang
<i>Journal of Fisheries and Marine Research</i> | 11 December 2023 |
| • Identification and level of ectoparasite intensity in goldfish (<i>Carassius auratus</i>)
<i>Journal Perikanan dan Ilmu Kelautan Politeknik Negeri Sambas.</i> | 2 October 2024 |

- Molucular detection of WSSV and TSV on vannamei shrimp using PCR Method **November 2024**
Prosiding Seminars International Conference On Agricultural, Nutraceutical And Food Science (ICANFS)
- Increasing Feed Efficiency in Catfish Farmers through Spirulina Supplementation in Feed **November 2024**
Prosiding Seminars Nasional Kemahasiswaan

Training and Courses

- TOEFL Courses at Real English Magelang **2023**
- Training hatchery of Grouper fish at BPPSDM KKP **2023**
- Bootcamp Mindo Education QA/QC in food Industry **2024**
- Occupation Health and Safety In Laboratory **2024**

Skills and Language

Soft Skill

- Time management skills
- Organizational skills
- Leadership
- Relationship building skills
- Communication
- Problem solving
- Critical thinking
- Analytical skills Teamwork
- Fast Learner

Hard Skill

- Microbiological Analysis
- Molecular Biology Analysis
- Aquaculture capabilities
- fisheries processing capability
- Software MEGA11
- Software Seqtrace
- Microsoft Word
- Microsoft Excel
- Microsoft Power Point
- Photoshop (Beginner)
- ArcGIS (Beginner)
- QGIS (Beginner)
- ImageJ
- Corel Draw (Beginner)
- Canva

Language

- Indonesian (Native)
- English (Fluent)
