Malang, Jawa Timur

I'm a fresh graduate in bachelor degree of animal science especially in animal product technology, My journey has led me to cherish the beauty of livestock utilization as well as polishing various additional skills such as copywriting and digital marketing to open up more new opportunities. I aim to make a positive impact on both the agricultural and animal product industries. I can interact with a variety of coworkers efficiently because I speak English a bit fluently which I earned from English class program during my college study. I'm driven to use my experience to help the organisation develop and succeed. I have a high desire to remain educated and dedication in the problem solving process with my ability to think critically.
