

M SULTON AL FARISHI

NUTRITIONIST/FORMULATOR/QUALITY CONTROL/QUALITY ASSURANCE/FARM EDUCATOR

A skilled professional in nutrition, feed formulation, quality control, and quality assurance, with a strong background in livestock education. As a graduate in Animal Nutrition and Feed Technology, I am proficient in quality and safety standards such as GMP and HACCP. With hands-on experience in ensuring product quality and compliance, I am dedicated to maintaining high standards in feed and food production. My background as a farm educator has honed my communication and teamwork skills, enabling effective collaboration in quality assurance processes.

PROFESSIONAL EXPERIENCE

- Centre for Agriculture and Rural Development IPB (PSP3 IPB) Pendamping Sekolah Peternakan Rakyat IPB (SPR IPB), Fakfak, Papua Barat** Mei 2023 - Jan 2024
- Educated the SPR Community on animal health, feed management, and agricultural practices, reaching over 54 farmers in a region provided by 6 group and collaborating with 10 instructors and doctors (IPB and others)
 - Provided technical support that led to a 30% improvement in farming practice application among participants.
 - Supported the development of business plans, resulting in a 20% increase in livestock productivity and a 25% boost in business efficiency.
 - Facilitated networking and coordination with 5 external entities, enhancing resource sharing.
 - Assisted in financial management, contributing to a 30% growth in the local farming community's economic stability
- Centre for Agriculture and Rural Development IPB (PSP3 IPB) Fasilitator Sekolah Peternakan Rakyat IPB (SPR IPB), Lamongan, Jawa Timur** Nov 2022 - Des 2022
- Created a 9-person group farm (wali) in the region, ensuring all members had a genuine farming background and a strong willingness to learn, leading to a 100% participation rate in training programs.
 - Mapped the region, providing recommendations that resulted in a 20% increase in sustainable resource (SDA) utilization and a 45% improvement in human resource (SDM) development.
 - Encouraged over 90% of farmers to actively participate in SPR-organized events and initiatives.
 - Fostered collaboration among farmers and associated parties, contributing to a 25% growth in farming business outcomes.
- CV Garuda Farm Cibungbulang, Kab.Bogor Technical Support Intern** Des 2021 - Jan 2022
- Confinements Management; Supervising and assisting the maintenance of confinement, keeping cage clean and safe
 - Feeding Management: managing and overseeing feeding procedures to guarantee cattle receive a diet tailored to their requirements
 - Health and disease Management; doing routine health tests for animals; keeping an eye out for illness indicators; and assessing the physical state of livestock
 - Production data record; Body weight, cattle condition, blue/estrus status, number of offspring
 - Cooperation and partnership with local farmers
- CV Global Buwana Farm Technical Support Intern** Des 2019 - Jan 2020
- Carrying out feed management, animal health and confinement maintenance
 - Monitoring of layer health; checking them frequently, and seeing any symptoms of illness in the hens
 - Daily data collection; gathering data related to egg production, feed consumption and chicken mortality rates
 - Coordination with the Team: To guarantee that the farm operates properly, managers, veterinary professionals, and nutritionists collaborate with one another.
 - Report Compilation
