ABOUT ME

I am a fresh graduate from the Logistics Management and Administration study program at Diponegoro University. I participated in a training program and obtained a Basic Export Executor certification during my studies. As a result, I am keenly interested in working as a logistics officer/shipping officer, focusing on administrative processes related to domestic/international logistics (export & import) within manufacturing, warehousing, freight forwarding, or other related companies.

I completed an internship for five months at a freight forwarding company, PT Angkasa Pura Logistik (International Airport Cargo Terminal Yogyakarta), where I was placed in operations. My responsibilities included issuing Airway Bill documents, creating delivery orders, inputting transaction data, and ensuring customer goods complied with air shipping regulations. Currently, I am enrolled in an online Brevet Tax AB course (October 2024-December 2024). After completing this training, I intend to participate in the Customs Service Business Management Training Program (PPJK).

Additionally, I am proficient in using several Windows software applications such as Microsoft Office, Photoshop, and Adobe Premiere.

EDUCATION

- **Diponegoro University (August 2020 - June 2024)**
Applied Bachelor/Diploma IV in Logistics Management and Administration
GPA = 3.79/4.00
