

AYU KARTIKA

Surabaya 60127 | 087820132399 | ayuk31822@gmail.com

Personal Profile

A Bachelor of Food Technology from the Department of UPN Veteran Surabaya. She is highly interested in social organizations. She is fond of making arrangements for an event, coordinating and managing technical matters during the event with experience in being an event division. She has a desire to learn new things and be able to understand quickly. She can apply logical, critical, systematic, and innovative thinking in the context of developing or implementing science technology in their field of expertise. Ayu has skills in selecting, characterizing, and performing various chemical analysis techniques on foodstuffs based on needs. Possess the ability to evaluate food components, nutritional value, active ingredients, and how processing and storage affect them, as well as how they work as functional foods. Able to work in a factory environment with a dynamic work system, use information sources, be professional and dedicated to ethical standards, and recognize the basics of raw material processing and manufacturing machine control. Ayu is responsible for every choice she makes, honest and careful in whatever she does, and able to work under pressure. She has good communication skills as well, and open to being positioned anywhere to enhance educational opportunities and personal growth.
