Desa Wonojoyo, Kec. Gurah, Kab. Kediri, Prov. Jawa Timur 64181

I am a fresh graduate in Biology major of Universitas Airlangga focusing on microbiology. I'm a responsible person, diligent, organized and neat. I like to observe the surrounding environment. I don't forget things easily. I always trying to do my best when it comes on work or study. Also, i can make friend easily and a flexible person. I can't be patient if one of my team work slowly. So, sometimes I handle their job. I can manage my time well, but sometimes I like to postpone work.

Education Level

Airlangga University - Surabaya

Sep 2020 - Jul 2024

Undergraduate in Biology in, 3.39/4.00

- completed the project "Biofertilizer Dosage Variation on Durian Plant Growth" in the research internship
- completed the final project with the title "The Effect of Giving Variations in Frequency and Dose of BIOMECONS-1 Consortium by Applying to Soil and Plant Organs on the Growth and Productivity of Cayenne Pepper Plants (Capsicum frutescens L.)" in 2024

Senior High School 1 Pare - Kediri

Aug 2017 - Jul 2020

Science in

Work Experiences

Laboratorium Kesehatan Provinsi Jawa Barat - Bandung

Jan 2023 - Feb 2023

Internship

West Java Provincial Health Laboratory is a laboratory to implement the health laboratory referral system

- made several media for testing, conducting river wastewater examination test on coliform by double tube MPN method, conducting drinking water examination test for coliform with MPN Quanti-Tray/2000 method, identify Escherichia coli and Coliform bacteria in food samples with MPN method

PT Sinergi Berkah Alami - Jombang

Aug 2023 - Dec 2023

Internship

companies in the field of tourism with durian commodity products

- conducting research on biofertilizer applications from microbes in the form of a mixture of bacteria and fungi and applied to durian plants.
- making biofertilizer from a mixture of 4 bacteria and 2 fungi that are consorted using 2% molasses media
- analyze the microbial content in durian planting media, both before and after biofertilizer treatment
- conduct analysis with the Most Probable Number (MPN) method for the analysis of nitrogen fixation bacteria
- analyzing with the Total Plate Count (TPC) method for the analysis of soil heterotrophic microbes, phosphate solubilizing bacteria, and decomposer bacteria

Kalbe Nutritionals x Rakamin Academy

Sep 2023 - Oct 2023

Project-Based Virtual Internship

part of PT KALBE Farma, Tbk. which produces nutritional products

- performs data ingestion into the dbeaver
- perform exploratory data analysis in dbeaver
- perform data ingestion into tableau public
- create dashboards in tableau
- create predictive models use regression and create clustering

Organisational Experience

Hazard Analysis and Critical Control Point (HACCP), Biology

May 2022 - Aug 2022

Expert Staff Liasion Officer

- in charge accompanies the participants during the activity
- in charge of creating engaging content

Sciencesomnia, Airlangga University

Apr 2022 - Nov 2022

Staff Sponsorship

- in charge of finding sponsors for activities
- in charge of collecting funds during the activity

Dekan Cup Sains and Technology Faculty, Airlangga University

Apr 2022 - Jul 2022

Staff Public Relations

- in charge as a liaison between students

Biology Environmental Science Competition (BESC), Airlangga University

May 2021 - Nov 2021

Staff Secretary

- in charge of registering the race participants
- in charge makes a certificate for the participant

BREAKOUT, Biology Airlangga University

Apr 2021 - Jun 2021

Staff event

- in charge of conceptualizing the event
- in charge organizes and leads the activities

BEEGRAD, Biology Airlangga University

Apr 2021 - Oct 2021

Staff Publication and Documentation

- in charge of documenting and publicizing the event

Skills & Other Experience

- **Volunteer Experience:** Volunteer of “Hari Sampah” & Volunteer Mental Health of Center for Environmental, Social, and Governance Studies (CESGS)
- **Soft Skills:** Communication, Time Management, Problem Solver, Respectful, Committed, and Passionate
- **Abilities:** Data Analysis, Microbiologist, Laboratory Skills, Computer Literate (Ms. Operation, picture and video editing)
