

NUR LAILATUL FATICHAH

Microbiologist | Quality Control | Forelady Laboratory

Wonosobo, Jawa Tengah | +6281213274930 | nurlailatulfatihah19@gmail.com

SUMMARY

A Bachelor of Microbiology with experience starting and coordinating a food laboratory as a Forelady Laboratory for 1 year. Part of Quality Control and Quality Assurance department in a food processing company that produces frozen chicken and marinated chicken. Have a HACCP, GMP, and internal auditor certificate. Interested in quality management system and document control.

EXPERIENCE

PT CHAROEN POKPHAND INDONESIA FOOD DIVISION - Plant Banyumas, Jawa Tengah

Forelady QC Laboratory (June 2022 - present)

- Coordinated the implementation of physical, chemical, and microbiological test on $\pm$ 1000 samples per week
- Arranged a matrix or schedule for testing samples of meat products, incoming material, finish goods, production water, flakes ice, source water, equipment machine swabs, personal hygiene swabs, environmental pathogen testing program, and effluent waste water quality
- Skilled in microbiological tests of TPC, *Coliform*, *E.coli*, *Salmonella*, *Campylobacter*, *S.aureus*, *Yeast Mold*, *Bacillus cereus*, *Enterobacter*, *Clostridium perfringens*, *Listeria monocytogens*
- Skilled in chemical tests for water content, salt content, waste chemical tests, and water chemical tests with drinking water standards
- Used to work at Biosafety Level 2 up
- Submitted analysis of test results and corrective action plan to PIC
- Arranged the validation test, calibration, and proficiency test schedule to an accredited institution
- Controlled product release and hold activity in SAP system, based on test result in laboratory
- Created consumable QC and Lab forecast, Purchase Requisition, Purchase Order, Good Receipt for consumable QC and Lab
- Created CoA for finish goods

Member of Halal Team, Food Safety Team, Recall and Traceability Team (August 2022 - Present)

- Compiled HACCP and GMP documents including: Product description, flow diagram, hazard analysis, CCP/decision tree identification, OPRP Plan, CCP Plan, and validation
- Performing internal audits and GMP Patrol every 1 month
- Conduct OPRP validation and develop CCP (metal detector) validation methods
- Conducting an audit of the halal assurance system every 6 months

PT PETROKIMIA KAYAKU – Gresik, East Java

Research and Development Department Intern (July 2019)

- Evaluated and redesigned virulence enhancement method of two entomopathogenic fungi (*Beauveria bassiana* and *Metarhizium anisopliae*) species used as bioinsecticide. The suggested new method increases the virulence by 33% compared to the existing product
- Created alternative growth media for entomopathogenic fungi to enhance spore production. Alternative growth media increase the spore production up to 63% compared by existing media
- Analyzed RnD department's research data using SPSS and Excel (Correlation test, F test, Duncan test, and LSD Tuckey test)

MICROBIOLOGY LABORATORY – Universitas Gadjah Mada, Yogyakarta

Laboratory Assistant Coordinator (February 2020 - August 2021)

- Created jobdesc for $\pm$ 30 laboratory assistant
- Created practical schedule for $\pm$ 368 student
- Develop curriculum and practicum materials with supervisors
- Report the practicum results and practicum evaluation to the supervisor

ORGANIZATION DAN VOLUNTEERING

KULIAH KERJA NYATA UGM – Cipanas, Banten

Flood Disaster Volunteers (January 2020 – February 2020)

- Educated civilians in two villages, about evacuation plan

- Created food security program for civilians by gardening in the yard
- Educated the civilians about microorganism infections that may occur during floods

PEER COUNSELOR - Universitas Gadjah Mada, Yogyakarta

Volunteers - Microbiology Department's Representative (July 2019 – February 2020)

- Completed the counseling basic training from psychologist
- Designed and implemented mentoring programs for 2 target students
- Reported the results of mentoring to supervisor

PERHIMPUNAN MAHASISWA MIKROBIOLOGI – Universitas Gadjah Mada, Yogyakarta

Advisory Board (February 2019 – December 2019)

- Supervised and provided advice for the Human Resources Department of PERMAHAMI
- Submitted suggestions for the cabinet
- Head of Human Resources Department (February 2018 – November 2018)
- Programmed recruitment flow for organization member
- Designed and implemented self-development and bonding programs for members of the organization
- Facilitated PERMAHAMI's reorganization process

EDUCATION

UNIVERSITAS GADJAH MADA (2016-2022)

Bachelor of Agricultural Science, majoring in Agricultural Microbiology – GPA 3.69 (excellent)

- Conducted undergraduate thesis research about isolation and identification compost-derived actinomycetes which have antagonist ability against soil borne pathogen
- Authored scientific review article about sex pheromone biosynthesis by *Yarrowia lipolytica* (yeast) as a pest biocontrol agent

SKILLS

LABORATORY TECHNICAL SKILLS: Aseptic technical on BSL 1 dan 2, media preparation, sterilization, microbial inoculation (total plate count, *Coliform*, *E.coli*, *Salmonella*, *Campylobacter*, *S.aureus*, *B.cereus*, *C.perfringens*, and yeast mold), microbial morphology test, biochemical test, *gram staining*, microbial enumeration, effluent quality test.

MACHINERY SKILLS: Binocular microscope, bag mixer, biosafety cabinet, optilab, UV-VIS spectrophotometer, pH meter, moisture analyzer, analytical balance, furnace, gel electrophoresis, autoclave, micro-pore vacuum filter, colony counter, micro-centrifuge, and thermal cycler PCR.

TOOLS: SAP (TPSTOCK, Create PR, Display PR, MIGO, Query List Material).

CONTENT EDITING APPS: Microsoft Office Suite (Word, Excel, Power Point), Google (Docs, Sheets).

SOFT SKILLS: Critical thinking, verbal and written communication, time management, teamwork, attention to detail, problem-solving, personal effectiveness.

LANGUAGES: Bahasa Indonesia (fluent), English (intermediate).

INTEREST: Quality control, document control, laboratory management, HACCP, ISO 22000, ISO 17025, microbiological analysis, chemical analysis,.

AWARD

Participants of the Pekan Ilmiah Mahasiswa Nasional 33 – Gagasan Tertulis (PKM-GT) about DNA barcoding funded by the Ministry of Research and Technology, Indonesia (November 2020)

TRAINING

- HACCP and Internal Auditor
- GMP
- ISO 17025
- FSSC ver. 6
- Cleaning and Sanitation for Food Industry
- Validation, Verification, and calibration
- Personal Effectiveness
- Sistem Jaminan Halal
- NKV Audit
