PROFILE

I am a graduate from D-3 Energy Conversion Engineering, and during college studied science related to energy conversion and electricity generation. I have a sufficient understanding of HVAC, air compressor, and various equipment related to utility systems.

I have worked at PT. Darya Varia Laboratoria as a boiler operator. As a boiler operator, I am responsible for the operation of steam boiler, air compressor, and water treatment systems. I am able to operate controls such as thermocontrol, troubleshoot AHU variables such as relative humidity, and perform basic electrical troubleshoot on utility systems.

SKILLS

Language (Indonesian, English)

Microsoft Office (Word, Excel, Power Point)

AutoCAD

Machine Operation (Steam Boiler, HVAC, WTP, Air Compressor)

EDUCATION

2013 – 2016 : SMKN 2 Yogyakarta – Teknik Kendaraan Ringan

2017 – 2021 : Politeknik Negeri Bandung – D3 Teknik Konversi Energi
