

PAULINA SRI MANGESTI

+62 85870402262 | paulinasmangesti@gmail.com | [Paulina Sri Mangesti](#)

A fresh graduate from the Animal Science and Industry program at Universitas Gadjah Mada with experience in farm management, laboratory testing, administrative management, and B2B supply chain management. Skilled in communication, data analysis, project management, and team collaboration. I am a fast learner, thriving in fast-paced environments and eager to tackle new challenges.

WORK EXPERIENCE

PT Busana Remaja Agracipta

Supply Chain - Procurement

Yogyakarta, DI Yogyakarta

2024 – present

- Received Purchase Orders from international buyers (Schiesser from Germany, Fruit of The Loom from United States, and Lascana from Thailand) through the ERP system, ensuring products met tech pack, sample, and quality control standards by managing labdip submissions, coordinating testing and approval processes, and achieving a 100% on-time material availability rate for production.
- Built and maintained strong relationships with local and international suppliers, ensuring consistent material quality and on-time delivery, while opening Purchase Orders (PO) to suppliers for material procurement based on production needs.
- Achieved a 20-30% cost reduction by optimizing purchasing strategies, aligning material quantities with existing inventory, and adjusting orders to meet suppliers' minimum order quantities (MOQ).
- Negotiated FOB incoterms with international suppliers on several occasions, leading to more cost-effective shipping arrangements.
- Ensured that materials were in-house and stored in the warehouse at least 45 days before the manufacturing process to maintain a smooth production flow.

Laboratory of Leather, By-product, and Livestock Waste Technology

Faculty of Animal Science, Universitas Gadjah Mada

Yogyakarta, DI Yogyakarta

Laboratory Teaching Assistant

2022 – 2024

- Provided tutoring, marking, and lab demonstrations for 300 students across the following courses: Waste Management in the Livestock Industry, Leather Studies, Design, and Technology, and By-Product Utilization in the Livestock Industry. The experiments including liquid parameter measurements (DO, BOD, COD), composting, organic fertilizer production, gelatin making, and skin pickling.
- Assisted in the preparation of chemical reagents and ensured proper execution of laboratory sessions.
- Served as secretary, managing practicum administration tasks, including scheduling pre-lab sessions, archiving documents, and handling correspondence, contributing to the smooth execution of 9 lab sessions.

Laboratory Research Assistant

2022 – 2024

- Isolated bacteria and produced protease enzymes, followed by amino acid analysis using the ninhydrin test. Developed hydrolysates from poultry by-products and evaluated antioxidant properties with the DPPH method. Identified bacteria through molecular techniques, including 16S rRNA gene sequencing, DNA isolation, PCR, and electrophoresis.
- Participated in community service activities related to the management of leather, by-products, and livestock waste by producing compost with the addition of by-products such as pickled goat leather.

PT Simbiosis Karya Agroindustri

Intern

Tanah Bumbu, Kalimantan Selatan

2022 – 2023

- Experienced and knowledgeable in managing livestock operations integrated with oil palm plantations from upstream to downstream
- Performed intensive, semi-intensive, and extensive beef cattle management, including feeding, herd movement, and barn sanitation
- Managed and processed livestock data, including health records, body weight measurements (± 300 cattle per month), eartag installations, RFIS number registrations, and Body Condition Scoring (BCS), ensuring accurate and organized documentation for efficient livestock management.
- Managed cattle health by administering vitamins via oral, subcutaneous, and intramuscular injections
- Responsible for feed procurement, including forage cultivation, concentrate purchase, and silage production.
- Processed beef into products like meatballs, shredded beef, and sausage product innovations. Managed warehouse administration, including the inflow and outflow of goods, inventory records using Sistem Informasi Manajemen (SIM), Microsoft Word, and Excel.
- Conducted weekly stock-taking to monitor physical stock and data accuracy, preparing Laporan Harian Posisi Stok (LHPS) regularly.

Pusat Pengembangan Ternak (PPT) Faculty of Animal Science UGM

Yogyakarta, DI Yogyakarta

Intern

2021

- Assisted in the production of pasteurized milk (+300 bottles/day) and distributed it to sales partners.
- Performed maintenance of dairy cattle and goats, focusing on feeding, stable sanitation, and milking processes
- Performed maintenance of beef, sheep, and horse livestock, including feeding, stable sanitation, and health monitoring.

EDUCATION

Universitas Gadjah Mada

Yogyakarta, DI Yogyakarta

Animal Science and Industry Major | GPA: 3.88/4.00

2020 – 2024

ORGANIZATIONAL AND EVENT EXPERIENCE

Ikatan Mahasiswa Berprestasi (IMAPRES) Kabupaten Wonogiri

Wonogiri, Jawa Tengah

Member

2020 – 2024

Group Coordinator

2021

Collaborated with students from various universities in collecting data on people with disabilities in Wonogiri. Trusted as part of the task acceleration transformation team, responsible for the verification and detailed review of birth certificate data and Family Cards (KK) to ensure the accuracy and validity of information with zero errors.

PPSMB Rancher Fakultas Peternakan, Universitas Gadjah Mada

Yogyakarta, DI Yogyakarta

Vice Coordinator of Material Division

2022

Created and developed concepts and materials for the PPSMB Rancher program, delivering them to 40 guides and overseeing their execution.

BEM Peternakan Universitas Gadjah Mada

Yogyakarta, DI Yogyakarta

Staff of Strategic and Scientific Studies Division

2020 – 2022

Analyzed recent issues in the animal husbandry sector through discussions with team members and created content based on these insights, which was posted on Instagram every month to raise awareness and foster community engagement.

Forum Studi Mahasiswa Peternakan, Universitas Gadjah Mada

Yogyakarta, DI Yogyakarta

Secretary of Professional Husbandry Development Division

2021 – 2022

Prepared work program proposals for 5 programs each semester, managed over 100 documents and correspondence, and organized community outreach, reaching approximately 50 local farmers to provide counseling and support on livestock management practices.

Organisasi Mahasiswa Daerah Wonogiri (SEGIGAMA)

Yogyakarta, DI Yogyakarta

Staff of Strategic and Scientific Studies Division

2020 – 2021

Conducted research on Wonogiri Regency information and created social media content for the “Fakta Unik Wonogiri” program on Instagram. During my time in the organization, I was responsible for this new initiative, which resulted in an increase of 200+ followers in a month. As a result of these contributions, I was awarded “Best Staff of The Month” as a member of SEGIGAMA.

AWARD, SKILL, AND OTHER EXPERIENCE

- **Scholarship of Mahasiswa Berprestasi Kabupaten Wonogiri (2020 – 2024)**
- **Voluntary Project (KKN in Nanusa, North Sulawesi):** Conducted outreach and demonstrations on making fish bone flour and compost; taught Mathematics and English at schools (elementary, junior high, and high school levels).
- **Technical Skills:** English, Microsoft Outlook, ERP Software, Microsoft Office (Word, Excel, PowerPoint); Video Conferencing (Zoom, Google Meet, Microsoft Teams); Google Drive (GSheets, GDocs, GSlides, GForms); Graphic Design (Canva).
- **Interpersonal Skills:** Communication, Negotiation, Teamwork, Public Speaking, Adaptability, Attention to Detail, Leadership, Supply Chain Management (SCM), Analytical Thinking, Fast Learner.
