ABOUT ME

I'm an Animal Science graduate from Gadjah Mada University. As a laboratory assistant for two years, I have gained experience in reproduction activities. I am experienced in microscopic sample analysis and quality control, particularly of semen, blood, biochemical tests, and enzymatic tests. I also have experience in laboratory administration, livestock maintenance, performing artificial insemination procedures, and conducting pregnancy checks on livestock. I have strong leadership skills, am detail-oriented, systematic, open to new ideas, and willing to learn new things. I am open to working in various sectors to improve my skills and contribute to the achievement of targets.

EDUCATION

Universitas Gadjah Mada (Animal Science and Industry)

Aug 2021 – Present

- Assisted in laboratory and field practical activities and successfully achieved cum laude **3,65 IPK**

High School 1 Wonogiri (Science)

Jun 2019 – May 2021

- Enrolled in the high school student two years acceleration program

EXPERIENCES

Breeding Genetics and Physiology Reproduction | Laboratory Assistant | Yogyakarta

Mar 2023 – May 2025

- Successfully coordinating 20+ assistant and assisting 320+ students (IUP and regular class)
- Responsible for collecting data and organizing assessment for 300+ students
- Assisted scientist with complex research task to facilitate swift project completion
- Conducted routine inspections on lab instrument for animal performance
- As coordinator of procedures, successfully conducted audits and controls of laboratory assistants.

Balai Embrio Ternak | Internship Program | Bogor

Jan 2025 – Feb 2025

- Assisting in the breeding, reproduction, and production of livestock
- Performing embryo transfer, insemination, one of the steps in the in-vivo production embryo
- Performing livestock maintenance, animal welfare, feeding and watering

Irfa'I Berkah Farm | Internship Worker | Kediri

Dec 2023 – Feb 2024

- Coordinator the supply of animal feed competition
- Conducting health checks and livestock care.
- Performing livestock maintenance, feeding and watering
- Performing quality control on compost fertiliser products for marketing purposes.

Founder CalciBlcok | Kampus Merdeka | Yogyakarta

Feb 2024 – July 2024

- Successfully produced mineral blocks for livestock feed supplements
- Conducting checks and quality control of mineral blocks before they are marketed

ORGANIZATION

KKN-PPM UGM Kapuas Bumannara | Coordinator Sub-unit | Kapuas

Oct 2023 – Oct 2024

- Responsible for accompanying, coordinating, and guiding 10 students from various faculties
- Successfully coordinated focused community empowerment projects, enhancing local participation, and meeting unique community needs
- Successfully signed a cooperation agreement with BPOM Palangkaraya regarding PIRT distribution permit registration
- Successful collaboration with Pulang Pisau Power Plant for the FABA programme for village road paving blocks

KMFPT Faculty of Animal Science UGM | HR Division | Yogyakarta

Dec 2023 – Dec 2024

- Successfully created and coordinated several new projects
- Successfully coordinating afternoon preaching every month during Ramadan
- Assists the chairperson in developing and supervising the implementation of the department's work programme.

FOSMAPET UGM | Expert staff | Yogyakarta

Feb 2022 – Feb 2023

- Successfully held a joint learning programme with Fosmapet
- Experienced as an event planner and MC for internal event
- Become an expert staff member who assists department members

Member of IMAPRES | Ikatan Mahasiswa Prestasi | Wonogiri

Feb 2022 – Dec 2023

- Scholarships for students from the Wonogiri district government.
- Assisting the village government in recording the NIBs of residents who own businesses in the village and collaborating with DTMPTSPT.

INDEPENDENT PROJECT

Research: “Effect of Body Condition Score On Blood Biochemical Levels, Estrogen Profile, And Estrus Response Of Saanen Does In Estrus Induction Program”

Aug 2024 – Feb 2025

- Studying the effects of BCS on blood biochemistry, estrogen hormones, and oestrus response
- Studying the oestrus cycle, oestrus response, and its effects
- Assisting goat farmers in determining the right strategy to optimise BCS, thereby improving reproductive and production management

SERTIFICATION

- | | |
|---|-----------|
| • ISO 22000:2018 (Food Safety Management System) | July 2025 |
| • FSSC 22000 version 6.0 (Food Safety System Certification) | |
| • HACCP (Hazard Analysis and Critical Control Point) | |
| • GMP (Good Manufacturing Practices) | |
| • SMK3 (Safety Management System) Based PP No 50 2012 | May 2025 |
| • ISO 45001:2018 (Health and Safety Management System) | |
| • ISO 14001:2015 (Environmental Management System) | |

EXPERTISE | INTERESTS

Skills	1. Leadership, Teamwork, Attension to Detail, conflict resolution 2. Able to coordinate all parties, skilled at driving a car, knowledge at lab instrumens 3. Capable of operating Microsoft, multitask, strong communication 4. ISO Standar Knowledge, Basic knowledge of GMP and HACCP 5. Able to operate simple measuring instruments, Time management
Language	: Indonesia (active), English (passive)
Interest	: Interested in breeding, Preparing samples, Quality control, Detail of product, Equipment operation, Production system, Inventory Optimization.
